

Dear Sir/Madam,

It is my understanding that it is your company that manufactures the product Sine-off.

I am head of a group called Mothers Against Methamphetamine (MAMa) of Loganville and Walton County Inc. a non-profit company fighting the war on Meth. I would like to commend you and your company for your new product and commercial.

Your commercial not only shows your dedication to the general public and our health, but also shows great dedication to being a proactive part in the war on Meth currently going on in America.

Just the mention of Meth in your commercial has tremendous impact. You are showing the general public that this is everyones problem and everyone is needed to stop this horrible drug that is affecting us ALL.

Although I am only one person.....I will be using your product not only for its tremendous effectiveness but in order to fund your company in a small way simply because you care.
